

June 10, 2019

Due to the Federal Government's May 10, 2019 imposition of a 25% tariff on specific product imported from China, Creative Converting will implement a 17% surcharge on these items only.

While we have worked with our suppliers and have absorbed much of the cost to date, we cannot sustain the magnitude and duration of the increase without passing this along. All orders we receive starting July 15, 2019 will carry a 17% surcharge applied to products subject to the tariff. We will eliminate the surcharge within 60 days of the tariff's repeal.

Finally, we continue to monitor the possible extension of tariffs to additional items and as always will look for ways to mitigate if possible.

Sincerely,

Bill Mullenix
President
